Pesticide Application Registry Notice 2017- 2018 School Year

Paris Community Unit School District No. 4 practices Integrated Pest Management, a program that combines preventive techniques, non-chemical pest control methods, and the appropriate use of pesticides with a preference for products that are the least harmful to human health and the environment. The term “pesticide” includes insecticides, herbicides, rodenticides, and fungicides.

This school district is establishing a registry of people who wish to be notified prior to unscheduled pesticide applications. A notice will be sent two days before the use of pesticides at the school if it is an unscheduled application. If there is an immediate threat to health or property that requires treatment before notification can be sent out, you will receive notification as soon as practicable.

To be included in this registry, go to www.crestwood.k12.il.us and click on “Parents”. Select “Forms”. Select “Pesticide Application Notice” and email as indicated to dyoung@crestwood.k12.il.us Please be sure to complete all parts with your name, student’s name, student’s grade level, date of request, and email address to notify. A paper copy may be requested and submitted to the superintendent’s office.
